Quarterly Half-yearly Yearly

b. Choose the minimum deviation (tolerance level) from your asset allocation to trigger an auto-rebalance % (default tolerance level is 5%)

3. Investment details

Please tick one of the following:

I would like to switch out of 100% of my current investment funds (not available if invested in ANZ Term Deposit options). Please complete Section 3B – Switch to.

I would like to perform a partial switch for some of my current investment funds. Complete both Section 3A – Switch from and 3B – Switch to.

I would like to add an Auto-Rebalance or amend my existing Auto-Rebalance plan. Please complete Section 3B – Switch to percentage (%) only.

I would like to update the fund(s) to which my future contribution is allocated (existing investments remain the same). Please complete the Future Investment Authority column in Section 3B – Switch to.

If you want to switch to more than 11 investment funds, please complete the request online at onepathsuperinvest.com.au

If you nominate your switch using the dollar (\$) column, your fund allocations on this form may differ from the actual allocation shown on your Confirmation of Switch Request because movements in the unit price have occurred.

Generally switch requests received before 12 noon on Sydney business days will be processed using the unit price effective on the date that the request is received. However, if your request requires us to process the switch over multiple days then we will use the unit price effective on the date each part of the switch is processed. If there are current transactions pending (e.g. rebates and fees) on the day a switch is requested, the switch will be processed when all other transactions have been completed using the unit price effective on the date the switch is processed.

You cannot use this form to switch from ANZ Term Deposit options. Please use the ANZ Term Deposit Break Form.

Please clearly write the fund code (see page 4) and investment fund name in the below section(s) for each investment selected. Only complete either the \$ switch column or the % switch column. If both are completed we will act on the details in the % switch column.
