^The MultiSeries investment options replicate the investment strategy of the IOOF MultiSeries Trusts (to the extent possible). For reasons of investment efficiency, the fund may gain its exposure to each sector by holding units in other Insignia Financial Group unit trusts and/or through direct investment holdings. Therefore the performance returns differ from the underlying IOOF MultiSeries funds which they replicate.

* The returns for the ANZ Cash Advantage Funds are calculated on a monthly basis and are subject to change. The current interest rates for these funds can be found on www.onepath.com.au

^The MultiSeries investment options replicate the investment strategy of the IOOF MultiSeries Trusts (to the extent possible). For reasons of investment efficiency, the fund may gain its exposure to each sector by holding units in other Insignia Financial Group unit trusts and/or through direct investment holdings. Therefore the performance returns differ from the underlying IOOF MultiSeries funds which they replicate.

^The MultiSeries investment options replicate the investment strategy of the IOOF MultiSeries Trusts (to the extent possible). For reasons of investment efficiency, the fund may gain its exposure to each sector by holding units in other Insignia Financial Group unit trusts and/or through direct investment holdings. Therefore the performance returns differ from the underlying IOOF MultiSeries funds which they replicate.

Returns (except for OnePath Capital Guaranteed) are calculated on an exit price to exit price basis and are net of fees, taxes and charges. Yearly returns for OnePath Capital Guaranteed are derived from the declared annual crediting rate which are calculated as the weighted average of the earnings over the previous years, less management costs, and cannot be less than zero.

^The MultiSeries investment options replicate the investment strategy of the IOOF MultiSeries Trusts (to the extent possible). For reasons of investment efficiency, the fund may gain its exposure to each sector by holding units in other Insignia Financial Group unit trusts and/or through direct investment holdings. Therefore the performance returns differ from the underlying IOOF MultiSeries funds which they replicate
