

ONEANSWER UNIT PRICE AVAILABILITY – SEPTEMBER QUARTER

September 2022

To assist you in servicing your clients, please find below the dates we expect to receive unit prices from underlying fund managers in October 2022 for the end of September.

As you are aware, unit prices at the end of September take into account any distributions of income and/or realised capital gains. As a result, unit prices may not be available immediately following 30 September. This can have an impact on transactions received at the end of September and in the first half of October depending on the investment funds involved in the transaction.

Any client requests to transact on their OneAnswer account, for example a switch, withdrawal or product transfer, will be processed on receipt of a correctly completed request. However, the completion of processing (including the confirmation of client transactions) will await the release of unit prices.

Confirmations will be sent out once client transactions have been finalised.

The estimated dates of unit price availability are listed below. Please note, these dates could change as they do not take into account a business continuity planning (BCP) event which may result in a delay. The dates could also change if there are delays from the underlying fund managers.
