What has changed?

On 29 September 2014, all UBS Australia bond indices were acquired by the global and independent index provider Bloomberg Indexes (Bloomberg). As a result, the performance benchmarks for the funds listed in the table below (Funds) have changed names and will now be calculated, maintained and licensed by Bloomberg. The changes became effective on 29 September 2014.

In addition, the performance benchmark for the OnePath Global Property Securities Fund will change as detailed in the below table.

What is the impact of the changes to the performance benchmarks?

There is minimal impact to the Funds as a result of Bloomberg's acquisition of the UBS Australia bond indices. Other than the change of name, the main change is that the performance benchmarks are now based on Bloomberg's pricing system, the Bloomberg Valuation Service, instead of the pricing used by UBS.

There will be minimal impact to the OnePath Global Property Securities Fund as a result of the performance benchmark change, other than the change of name. The Fund will still use the most comparable index.

The old and new names of the performance benchmarks are outlined in the table below.
