Fund Summary

OptiMix Property Securities Trust

OneAnswer Frontier Investment Portfolio

Market and portfolio review

Global REITs delivered a negative return for the quarter, underperforming global equities, as rising long-term Treasury yields and investor rotation away from yield-oriented assets toward higher-growth equity sectors weighed on the sector. Resolution outperformed due to positive stock selection in health care, diversified , self storage and retail. Having no exposure to specialty also contributed favourably to performance. Cohen and Steers underperformed due to being underweight industrial and negative stock selection in data centres.
