The portfolio closely tracked the underlying index, the S&P/ASX 300 A-REIT Index, which returned 1.44% during the same period. The portfolio is solely exposed to the Real Estate sector with a focus on Australian real estate investment trusts (A-REITs) and mortgage REITs. #### Future investment strategy

The Portfolio will continue to seek investment results that, before expenses, correspond generally to the underlying index. The Portfolio management team works closely with index providers to monitor any index methodology changes. There have been no changes to the objectives of this mandate as at 31 March 2022 and we do not currently anticipate any future changes.

Value and cyclical stocks could outperform in the short run as markets digest the Fed's hawkish pivot but we anticipate defensive sectors such as IT, communication services, health care, real estate and consumer staples are likely to outperform modestly over the full year.
