

# PDS UPDATE – INDIRECT COSTS FOR ONEANSWER INVESTMENT PORTFOLIO //SELECT

## PDS UPDATE | 7 DECEMBER 2018

This Product Disclosure Statement (PDS) Update amends the OneAnswer Investment Portfolio //Select – Fees and Charges Guide, issued on 18 September 2017.

### UPDATED INFORMATION

#### 1. Total Ongoing Fees and Costs for each investment fund

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 6 - 8

**Title reference:** Total Ongoing Fees and Costs for each investment fund

**Instructions:** replace the table and footnotes under these sections with the following information.

The Indirect costs shown below relate to the financial year ended 30 June 2018, and may vary in the future.

**It is important to remember that past costs are not a reliable indicator of future costs.**

Investment fund	Ongoing Fee charged to investment fund (% p.a.)	Rebate paid to //Select (% p.a.)	Total Ongoing Fees and Costs		
			(A) Ongoing Fee (% p.a.)	(B) Indirect Costs* (% p.a.)	(C = A + B) Total Fees & Costs (% p.a.)
<b>Multi-manager investment funds</b>					
<b>Investor Profile 2 – Conservative</b>

\* These indirect costs are based on actual costs incurred for the 12 months ended 30 June 2018. In certain circumstances these have been calculated using assumptions and estimates.

† A portion of the Ongoing Fee is charged under the expense clause of the relevant investment fund's constitution. The remainder is charged under the management fee clause.

^ During the financial year ended 30 June 2018, there was an asset transition resulting from a change of underlying fund. This transition resulted in extraordinary transaction costs which are included above but are not expected to be included in future years.

§ For these investment funds, the maximum Switching Fee that may be charged is 5% of the amount switched. Please note we do not currently charge a Switching Fee.

# A performance related fee may be payable in relation to this investment fund and where payable in the year to 30 June 2018 this has been included above. Please refer to 'Performance related fees' in this update.

\*\* For example, for every \$1,000 invested in OnePath Blue Chip Imputation, an Ongoing Fee of \$11.50 will be charged each year. This example is for illustrative purposes only.

‡ This is the Ongoing Fee charged on the net assets of the relevant investment fund. Assuming a gearing ratio of 50%, this would represent an Ongoing Fee on gross assets of 0.85% p.a.

## 2. Fees and other costs table

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 5

**Reference:** row labelled 'Indirect Costs'

**Instructions:** replace the **Indirect Costs** row with the following information.

Type of fee or cost	Amount	How and when paid
Management costs <sup>^</sup>	<p><b>Indirect Costs</b> Between 0% and 1.38% p.a. of the amount invested in each investment fund.</p> <p>Indirect costs for some investment funds include performance related fees which range from 0% to 1.05% p.a. depending on the investment fund.</p> <p>Note: The indirect cost amounts set out above are based on the indirect costs for the 12 months to 30 June 2018.</p>	<p><b>Indirect Costs</b> Indirect costs are variable and are deducted from the underlying assets of the investment fund as and when they are incurred.</p> <p>These indirect costs are not an additional fee charged to you. Rather they are reflected in the returns payable from the underlying investments and as such are included in the unit price.</p> <p>Performance related fees are deducted from the underlying assets of the investment fund when due and payable.</p>

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 5

**Reference:** footnote marked '<sup>^</sup>' relating to 'Management Costs'

**Instructions:** replace the footnote with the following information.

In addition to the Management Costs, we are entitled to recover costs incurred in the performance of our duties as responsible entity of the relevant investment fund and in the administration and management of the investment fund. These reimbursable expenses include charges, fees, expenses, commissions, liabilities and losses associated with the investment fund. An expense recovery may be charged to recover various costs incurred by the investment funds to implement government regulatory reforms. Where this is charged we expect it to be charged on one day during the financial year. During the 12 months to 30 June 2018, we charged an expense recovery of up to 0.04% p.a. We estimate that up to 0.04% p.a. will be recovered for the 12 months to 30 June 2019.

### 3. Example of annual fees and costs for a balanced investment option

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 12

**Title reference:** Example of annual fees and costs for a balanced investment option

**Instructions:** replace the example table and footnotes with the following information.

Example – OnePath Managed Growth		Balance of \$50,000 with total contributions of \$5,000 during the year
Contribution Fees	Nil	Not applicable
PLUS Management costs	1.15% p.a. ongoing fees plus 0.47% p.a. indirect costs plus 0.04% p.a. expense recovery**	<b>AND</b> , for every \$50,000 you have in the balanced option you will be charged \$830 each year
EQUALS Cost of balanced investment option		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000† during that year, you will be charged fees of <b>\$830#</b> <b>What it costs you will depend on the investment option you choose and the fees you negotiate</b>

\* Ongoing Fee rebates apply when your balance exceeds \$100,000.

\*\* Figures based on the actual amount deducted for the 12 months to 30 June 2018. This amount is estimated to be up to 0.04% p.a. for the 12 months to 30 June 2019.

† You may also incur a buy-sell spread when your money moves in or out of an investment fund. You may also incur an investor fee of \$48p.a. if your account balance is under \$10,000.

# We have assumed a constant value during the year. In addition, the calculation of the management costs in the example does not take into account the additional contribution of \$5,000.

#### 4. Transaction costs for each investment fund

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 13 - 15

**Title reference:** Transaction Costs for each investment fund

**Instructions:** replace the table and footnotes with the following information.

These transaction costs shown below relate to the financial year ending 30 June 2018, and may vary in the future. **It is important to remember that past costs are not a reliable indicator of future costs.**

## 5. Performance related fees

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 10

**Title reference:** Performance related fees

**Instructions:** replace the table and footnotes with the following information.

The investment options with performance related fees and their relevant benchmarks for the 12 months to 30 June 2018 are noted in the following table.

Benchmark	Performance fee <sup>‡</sup>	Performance related fee <sup>^</sup> % p.a.
<b>Antipodes Global (Long only)</b>		
MSCI All Country World Net Index in AUD.	15% of outperformance above the benchmark.	0.02
<b>Ausbil Australian Emerging Leaders</b>		
70% S&P/ASX Midcap 50 Accumulation Index and 30% S&P/ASX Small Ordinaries Accumulation Index.	15.375% of outperformance above the benchmark plus 0.85% p.a. <sup>†</sup>	0.00
<b>Greencape Broadcap</b>		
S&P/ASX 300 Accumulation Index	15% of outperformance above the benchmark.	0.30
<b>Magellan Global</b>		
Dual Hurdle of the MSCI World Net Total Return (AUD) (“Index Relative Hurdle”) and the yield of 10-year Australian Government Bonds (“Absolute Return Hurdle”).	10% of the excess return above the higher of the Index Relative Hurdle and the Absolute Return Hurdle over each 6 monthly period ending 31 December and 30 June, subject to the High Water Mark being met for the relevant period.	0.20
<b>OnePath Alternatives Growth</b>		<b>1.05<sup>#</sup></b>
For the underlying funds*:		
• GMO Systematic Global Macro fund the benchmark is the Bloomberg AusBond Bank Bill Index.	20.111% of outperformance above the benchmark.	2.27
• Man AHL Alpha fund the performance fee is not linked to a benchmark index.	25% of the increase in net asset value over the previous highest closing net asset value subject to a High Water Mark.	1.27
<b>RARE Infrastructure Value</b>		
An accumulation index comprising the OECD G7 Inflation Index plus 5.5% per annum.	10.25% of the investment returns made in excess of the benchmark, subject to a High Water Mark. <sup>§</sup>	0.00

<sup>‡</sup> For example, for every \$1,000 you invested in the Magellan Global fund, a \$2.00 performance fee would have been charged for the year ending 30 June 2018. This example is illustrative only.

<sup>^</sup> The performance-related fees are for the 12 months to 30 June 2018 (**past costs are not a reliable indicator of future costs.**) The performance fee payable may differ from year to year.

<sup>†</sup> If a period of underperformance to the benchmark occurs, the performance related fee accrued is frozen at its current level and further performance-related fees do not start accruing again until the full amount of underperformance is recouped.

<sup>#</sup> The estimated performance-related fee for OnePath Alternatives Growth is 1.05% p.a., based on the weighted average of the estimated performance-related fees of the underlying investments.

<sup>\*</sup> The other underlying funds are not listed here as they do not charge a performance related fee.

<sup>§</sup> The total performance related fees will not exceed 0.30% of the average of the daily net asset value of the fund in any financial year.

## 6. Borrowing costs

**OneAnswer Investment Portfolio //Select – Fees and Charges Guide** page reference: 11

**Title reference:** Borrowing costs

**Instructions:** amounts under ‘Borrowing costs’ are replaced with the following information.

The borrowing costs for the following investment funds, for the 12 months to 30 June 2018 were:

- OnePath Alternatives Growth\* – 0.05% p.a.
