INDIRECT COSTS UPDATED FOR ONEANSWER FRONTIER INVESTMENT PORTFOLIO

Continuous Disclosure Notice | 14 December 2019

This Continuous Disclosure Notice provides important information to current investors of OneAnswer Frontier Investment Portfolio.

We have determined Indirect Costs for each investment fund offered through OneAnswer for the year ended 30 June 2019. The updated Indirect Costs are included in the OneAnswer PDS available on the OnePath website from 14 December 2019. The Indirect Costs are included in this update on pages 2 - 4.

WHY HAVE INDIRECT COSTS BEEN UPDATED?

After the end of each financial year, we are required to determine the indirect costs that were incurred during the financial year. Once determined we are required to update our PDS and our current investors on the quantum of the indirect costs.

WHAT ARE INDIRECT COSTS?

Indirect costs include amounts that have been deducted from your investment and cover amounts that have reduced the return on your investment but are not charged as a fee.

Please refer to the latest PDS for more detailed information about indirect costs and what they include. Please see <u>here</u> for the updated PDS.

^ Some components of the indirect costs determined for the 12 months ending 30 June in the previous complete financial year have been estimated.

‡ This is the Ongoing Fee charged on the net assets of the investment fund. Assuming a gearing ratio of 50%, this would represent an Ongoing Fee on gross assets of 0.825% p.a.

* For example, for every \$1,000 invested in OnePath Blue Chip Imputation, an Ongoing Fee of \$10.50 will be charged each year. This example is for illustrative purposes only.

A performance-related fee may be payable in relation to this investment fund and where payable in the previous complete financial year the fee has been included above. Please refer to the PDS for details of the performance fees.

§ During the financial year ended 30 June 2019 there was a change of one or more of the underlying fund managers which lead to a restructure of some investment holdings. This transition resulted in extraordinary transaction costs which are included above but are not expected to be incurred in future years.
